

Just because I like goth
does not mean I do not like colors
my favorite color is not always black

Just because I like goth
I must be into crystals, herbs, and spells
But cannot tell you the difference between herbs and weed
I do not do very much outside
instead I like being indoor with my closest friends watching a horror movie

Just because I like goth
I must be an evil person and a bad bitch
in reality I am shy and overthink a lot

Just because I like goth
does not mean I am suffering from depression

Just because I like goth
I must be a crazy cat lady
But instead I am a crazy rat lady
and want at least ten of them

Just because I like goth
I only listen to heavy metal or old, dark songs from "Bauhaus"
You can listen to whatever songs you want
And any kind of music does not make you less goth

Just because I like goth
my bedroom must be painted all black
and my furniture must be also painted black
and no, my bedroom is not only decorated with candles

Just because I like goth
I am not a Wicca or a Witch
I am not in a cult or in a coven
I do not have a book of shadows
and do not follow the Three-Fold law and sabbats
but it does not mean I am not interested in all of these things

Just because I like goth
I do not hate other people
I will always respect and support others in their interests and hobbies
We are all individuals and should be supportive
instead of dragging other people down for what they live for
We should all embrace our inner and outer beauty because you are perfect
the way you are
